

Wednesday, September 23, 2020 (Pacific Time)

Please note there are two courses to choose from during the Wednesday sessions.

**Core Competency in Medical Dermatology**

is designed to provide essential information to clinicians new to dermatology or those wanting to increase their knowledge of basic science and therapies used in dermatology.

**Master's Classes**

are designed as an interactive session in which our expert faculty will discuss management strategies for your most challenging cases.

CORE COMPETENCY IN MEDICAL DERMATOLOGY "BOOT CAMP"		
7:00-7:55 AM	Visit Virtual Exhibit Hall	
7:55-8:00 AM	DAILY ANNOUNCEMENTS	
8:00-9:00 AM	<p><b>"What Lies Beneath?" Understanding the Structure &amp; Function of Skin With Correlation to Disease States</b></p> <p>A structural overview of the skin and its components and how they correlate to skin diseases.</p>	<p>Moderator: G. Martin, MD</p> <p>Faculty: W. High, MD, JD</p>
9:00-10:00 AM	<p><b>Dermatopathology Overview: What You Need to Know About Dermatopathology to Make You a Better Clinician</b></p> <p>A one-hour overview of dermatopathology that will provide a deeper understanding of the process from biopsy to path report. How, when, where and why to correctly perform shave, punch and excisions for biopsy and tumor clearance; perils and pitfalls of improperly done biopsies; specimen processing and what you should know; how to interpret a path report and when to ask questions; special stains and their importance; why it is good to know your dermatopathologist.</p>	<p>Moderator: G. Martin, MD</p> <p>Faculty: W. High, MD, JD</p>
10:00-10:30 AM	<p><b>Skin Immunology and Why It is Important to Your Diagnostic and Therapeutic Acumen: Part 1</b></p> <p>An overview of the immunology of the skin and how it relates to skin diseases. The role of T and B cells, dendritic cells, cytokines in diseases of the skin will be covered to create a better understanding of the role of the immune system in a wide variety of skin disorders.</p>	<p>Faculty: A. Blauvelt, MD, MBA</p>
10:30-11:15 AM	Visit Virtual Exhibit Hall	
11:15-11:45 AM	<p><b>Skin Immunology and Why It is Important to Your Diagnostic and Therapeutic Acumen: Part 2</b></p>	<p>Faculty: A. Blauvelt, MD, MBA</p>
11:45-1:00 PM	<p><b>Comprehensive Primer on Drugs and Diseases in Dermatology: Part 1</b></p> <p>Our faculty will cover the pharmacology of drugs used to treat the most common skin disorders in dermatology including acne/rosacea, psoriasis, eczema, actinic keratoses, cutaneous infections (viral, bacterial, fungal, parasitic and arthropod) and many other skin disorders. Each speaker will discuss in great detail the molecular mechanisms of action of each drug, dosing, efficacy, and side effects. Each drug will be discussed in the context of a defined disease state and the "how, when, where and why" will be discussed in detail. From benzoyl peroxide to biologic agents, your comfort level with drugs in dermatology will go up an order of magnitude!</p>	<p>Faculty: T. Rosen, MD M. Zirwas, MD</p>
1:00-2:00 PM (Non-CME Event)	<p><b>Industry Sponsored Product Theater hosted by Regeneron and Sanofi Genzyme</b></p> <p>The Shades of Atopic Dermatitis in Skin of Color. Speaker: Alexandra Golant, MD, FAAD</p>	
2:00-3:45 PM	<p><b>Comprehensive Primer on Drugs and Diseases in Dermatology: Part 2</b></p>	<p>Faculty: B. Strober, MD, PhD J. Harper, MD H. Baldwin, MD</p>
3:45-4:00 PM	Visit Virtual Exhibit Hall	

4:00-5:30 PM	<p><b>Cutaneous Surgery and Non-melanoma Skin Cancer: Diagnosis and Management</b></p> <p>The participant will have the opportunity to assess non-melanoma skin cancers using a “case study” format. The lesions will be evaluated to determine the degree of risk for recurrence and metastasis and appropriate management strategies will be presented.</p>	<p><i>Faculty:</i> G. Martin, MD S. Chilukuri, MD</p>
5:30 PM (Non-CME Event)	<p><b>Industry Sponsored Event hosted by Helsinn</b> Perspectives in the Management of Stage IA/IB MF-CTCL: Current Concepts in Clinical Practice Speaker: Mack Rachal, MD, PhD</p>	
6:30 PM (Non-CME Event)	<p><b>Industry Sponsored Event hosted by Ortho Dermatologics</b> Changing Impressions of Topical Therapy: DUOBRII Lotion. Speaker: Jennifer Soung, MD</p>	
<b>MASTER'S CLASSES IN MEDICAL DERMATOLOGY</b>		
7:00-7:55 AM	Visit Virtual Exhibit Hall	
7:55-8:00 AM	DAILY ANNOUNCEMENTS	
8:00-10:30 AM	<p><b>Infectious Diseases</b></p> <p>Advancing your knowledge of infectious diseases and their impact on the skin. A range of viral, bacterial, fungal, parasitic, arthropod infections will be discussed in depth during this Master's Class.</p>	<p><i>Faculty:</i> T. Rosen, MD L. Diaz, MD</p>
8:00-10:30 AM	<p><b>Contact Dermatitis and Eczema</b></p> <p>Everything you want to know about contact dermatitis, patch testing and the approach to a wide variety of eczematous eruptions.</p>	<p><i>Faculty:</i> M. Zirwas, MD</p>
10:30-11:15 AM	Visit Virtual Exhibit Hall	
11:15-1:00 PM	<p><b>Psoriasis and Psoriatic Arthritis</b></p> <p>This session is designed as a series of case-based studies covering a wide range of diseased states in psoriasis that will challenge even the most experienced clinician.</p>	<p><i>Faculty:</i> B. Strober, MD, PhD A. Kavanaugh, MD M. Young, MSN, ANP-c</p>
11:15-1:00 PM	<p><b>Managing Leg Ulcers: An Expert's Guide to Success</b></p> <p>Dr. Michael Bond will share his 30+ years of dermatology experience on how to evaluate and treat leg ulcers. Dr. Bond will provide a clinical diagnostic and therapeutic algorithm to managing even the most difficult of leg ulcers.</p>	<p><i>Faculty:</i> M. Bond, MD</p>
1:00-2:00 PM (Non-CME Event)	<p><b>Industry Sponsored Product Theater hosted by Regeneron and Sanofi Genzyme</b> The Shades of Atopic Dermatitis in Skin of Color. Speaker: Alexandra Golant, MD, FAAD</p>	
2:00-4:30 PM	<p><b>Pediatric Dermatology</b></p> <p>The faculty will discuss a wide array of their most challenging cases in pediatric dermatology.</p>	<p><i>Faculty:</i> R. Hunt, MD J. Treat, MD</p>
2:00-4:30 PM	<p><b>Connective Tissue Disorders: Advanced Therapeutics</b></p> <p>Dr. Rick Sontheimer (who wrote the textbook on CT disorders) will be joined by rheumatologist extraordinaire Dr. Marty Bergman to discuss challenging cases of connective tissue disorders. They will cover the spectrum of lupus, dermatomyositis, scleroderma and vasculitis. They will bring their great experience in managing extremely difficult cases in which dermatologists and rheumatologists combine skills sets to improve patients outcomes.</p>	<p><i>Faculty:</i> R. Sontheimer, MD M. Bergman, MD</p>
5:30 PM (Non-CME Event)	<p><b>Industry Sponsored Event hosted by Helsinn</b> Perspectives in the Management of Stage IA/IB MF-CTCL: Current Concepts in Clinical Practice Speaker: Mack Rachal, MD, PhD</p>	
6:30 PM (Non-CME Event)	<p><b>Industry Sponsored Event hosted by Ortho Dermatologics</b> Changing Impressions of Topical Therapy: DUOBRII Lotion. Speaker: Jennifer Soung, MD</p>	

## Thursday, September 24, 2020 (Pacific Time)

7:00-7:55 AM	Visit Virtual Exhibit Hall	
7:00 AM (Non-CME Event)	<b>Industry Sponsored Event hosted by Novartis</b> Experience That Matters: The Complete COSENTYX® (secukinumab) Approach for Moderate to Severe Plaque Psoriasis and Active Psoriatic Arthritis. Speaker: Jerry Bagel, MD, MS	
7:55-8:00 AM	<b>DAILY ANNOUNCEMENTS</b>	
8:00-9:30 AM	<b>Dermatology Update 2020</b> The top articles from the literature in 2019 and 2020 that will affect the way you practice dermatology will be discussed.	<i>Faculty:</i> T. Rosen, MD M. Zirwas, MD L. Diaz, MD S. Desai, MD
9:30-9:40 AM	Q&A	
9:40-10:25 AM	<b>New Drugs and New Therapies for 2020 and 2021</b> New drugs and therapies that will change the way in which we practice dermatology are coming our way! Will you be ready to use them? Our faculty will provide the key elements to the early adoption of these amazing therapies. They will also give you a glimpse into the pipeline of amazing drugs and devices headed our way.	<i>Faculty:</i> T. Rosen, MD L. Stein Gold, MD
10:25-10:30 AM	Q&A	
10:30-11:15 AM	Visit Virtual Exhibit Hall	
11:15-11:50 AM	<b>Dr. Matt Zirwas' Approach To Dermatitis</b> Picking up where he left off from the Summer Meeting, Dr. Zirwas will discuss taught eyelid dermatitis cases as well as perplexing scalp, face, hand, and total body rashes are the bane of our dermatology practices. Dr. Zirwas, who has made a career out of diagnosing and treating "dermatitis", will share his approach to evaluating and treating a wide variety of challenging cases of "dermatitis".	<i>Faculty:</i> M. Zirwas, MD
11:50-12:00 PM	Q&A	
12:00-1:00 PM	<b>Cutaneous Oncology Update 2020</b> The spectrum of cutaneous oncology ranging from AKs to advanced NMSC will be discussed. New concepts, new drugs and new applications for existing therapies will be discussed in a case-based approach. Listen to how we treat even our most challenging patients.	<i>Faculty:</i> T. Rosen, MD G. Martin, MD D. Ozog, MD H. Gladstone, MD
1:00-1:15 PM	Q&A	
1:15-2:15 PM (Non-CME Event)	<b>Industry Sponsored Product Theater hosted by Lilly</b> "What Sets Taltz Apart: An Overview of Long-Term Safety and Efficacy—Featuring Data in New Patient Population" Speaker: Stacy Smith, MD	
2:15-3:50 PM	<b>Psoriasis and Psoriatic Arthritis 2020 in the COVID-19 Era</b> New drugs, new data, new approaches to psoriasis and psoriatic arthritis will be discussed. This will be followed by a discussion of a series of challenging case scenarios which will help you manage even the most challenging patient will be discussed. Dr. Gelfand will discuss the outcome of the NPF COVID-19 Task Force guidelines for the management of patients on oral systemic and biologic immunomodulatory and immunosuppressive therapies.	<i>Faculty:</i> J. Gelfand, MD B. Strober MD, PhD A. Kavanaugh, MD
3:50-4:00 PM	Q&A	
4:00-4:50 PM	<b>Atopic Dermatitis Update 2020</b> The explosion of new topical and systemic therapies for atopic dermatitis has challenged clinicians in dermatology to stay abreast of the latest treatment algorithms for treating AD. Our expert faculty will discuss a wide range of cases ranging from severe AD in infancy through adulthood.	<i>Faculty:</i> E. Simpson, MD L. Eichenfield, MD

4:50-5:00 PM	Q&A
5:00 PM (Non-CME Event)	<b>Industry Sponsored Event hosted by Castle Biosciences</b> Gene Expression Profiling for Dermatologic Cancers: Molecular Information for Personalized Management Decisions in Melanoma and cSCC. Speaker: Shannon Trotter, DO
6:00 PM (Non-CME Event)	<b>Industry Sponsored Event hosted by DERMIRA</b> QBREXZA® Product Theater. Speaker: Seemal Desai, MD, FAAD

## Friday, September 25, 2020 (Pacific Time)

7:00-7:55 AM	Visit Virtual Exhibit Hall
7:00 AM (Non-CME Event)	<b>Industry Sponsored Event hosted by Pfizer</b> Understanding the JAK/STAT Pathway and Burden of Atopic Dermatitis. Speaker: Linda F. Stein Gold, MD
7:55-8:00 AM	<b>DAILY ANNOUNCEMENTS</b>
8:00-9:05 AM	<b>Update on Infectious Diseases 2020</b> Drs. Rosen and Yan will discuss diagnostic and therapeutic challenges in children and adults covering a range of viral, bacterial, fungal, parasitic and arthropod diseases. <i>Faculty: T. Rosen, MD A. Yan, MD</i>
9:05-9:15 AM	Q&A
9:15-10:20 AM	<b>Hair Disorders Update 2020</b> This is simply the best lecture on hair disorders that you will ever listen to! This lecture will be presented by Dr. Jerry Shapiro, who is considered to be the leading authority in the dermatology world on hair disorders. He will cover the spectrum of hair disorders from non-scarring to scarring alopecias. <i>Faculty: J. Shapiro, MD</i>
10:20-10:30 AM	Q&A
10:30-11:15 AM	Visit Virtual Exhibit Hall
11:15-12:00 PM	<b>Nailing the Diagnosis</b> Back by popular demand! Dr. Phoebe Rich, one of the leading nail authorities will present a wide range of nail disorders from infections, metabolic disorders to cancer of the nail. Diagnostic and therapeutic challenges will be discussed. When to watch and reassure? When to biopsy? How to treat? <i>Faculty: P. Rich, MD</i>
12:00-12:05 PM	Q&A
12:05-1:10 PM	<b>Melasma, Vitiligo, Post-Inflammatory Hyperpigmentation and More...</b> Dr. Amit Pandya, one of the leading experts in skin of color and disorders of pigmentation will discuss his approach to disease states such as melasma, vitiligo and more. During his case-based discussion, he will share his diagnostic approach, including differential diagnoses to consider, and the latest strategies used to manage a wide range of pigmentation disorders. <i>Faculty: A. Pandya, MD</i>
1:10-1:15 PM	Q&A
1:15-2:15 PM (Non-CME Event)	<b>Industry Sponsored Product Theater hosted by Ortho Dermatologics</b> Tazarotene Reformulated. Speaker: Leon Kircik, MD

2:15-3:45 PM	<b>Acne and Rosacea Update 2020</b> Our esteemed faculty of acne and rosacea experts will cover the complete spectrum of acne and rosacea disorders. They will present therapeutic conundrums and how they optimized therapy even in their most challenging patients.	<i>Faculty:</i> J. Harper, MD H. Baldwin, MD M. Perman, MD
3:45-4:00 PM	<b>Q&amp;A</b>	
4:00-5:00 PM	<b>Zebra's in Dermatology</b> There are those skin disorders every few years or in some cases once in a career. In medicine, we call them "zebras". Our faculty will present a series of clinical "zebras" that challenged their clinical skills in making the diagnosis. Pay attention as each case that will be presented required an extensive differential diagnosis and in some cases a diagnostic workup and full armamentarium of therapeutic agents.	<i>Faculty:</i> S. Desai, MD T. Rosen, MD A. Yan, MD
5:00-5:15 PM	<b>Q&amp;A</b>	
5:15 PM (Non-CME Event)	<b>Industry Sponsored Event hosted by Pfizer</b> "Steroid-Free EUKRISA: A Treatment Option for Mild-to-Moderate Atopic Dermatitis in Patients Aged 3 months and older". Speaker: Emily Becker, MD	
6:15 PM (Non-CME Event)	<b>Industry Sponsored Event hosted by Sun</b> "Clinical Insights on ILUMYATM (tildrakizumab), An IL-23 Inhibitor for the Treatment of Moderate-to-Severe Plaque Psoriasis." Speaker: James Song, MD	

## Saturday, September 26, 2020 (Pacific Time)

7:00-7:55 AM	<b>Visit Virtual Exhibit Hall</b>	
7:00 AM (Non-CME Event)	<b>Industry Sponsored Event hosted by AbbVie</b> "Studies in Clearance" – Skyrizi for moderate to severe plaque psoriasis. Speaker: Jeff Crowley, MD	
7:55-8:00 AM	<b>DAILY ANNOUNCEMENTS</b>	
8:00-9:05 AM	<b>Neonates to Adolescents Pediatric Dermatology Update 2020</b> Our pediatric dermatology faculty will present a wide range of cases for discussion that presents a diagnostic and therapeutic challenge. Neonatal rashes, viral exanthems, lumps and bumps, hot topics in peds derm, creative solutions for hard to treat common problems and more!	<i>Faculty:</i> A. Yan, MD M. Perman, MD
9:05-9:15 AM	<b>Q&amp;A</b>	
9:15-10:05 AM	<b>Cutaneous Manifestations of Systemic Disease</b> Dr. Seemal Desai's lecture on Cutaneous Manifestations of Systemic Diseases is simply the "gold standard" for this topic. His lecture at the AAD is always a standing room only crowd. Watch and listen as he "super sleuths" subtle cutaneous clues and comes up with diagnoses that have internists scratching their head trying to figure out how he came up with the diagnosis.	<i>Faculty:</i> S. Desai, MD
10:05-10:15 AM	<b>Q&amp;A</b>	
10:15-11:00 AM	<b>Visit Virtual Exhibit Hall</b>	

11:00-1:00 PM	<b>The Pigmented Lesion Clinic</b> Our panel of experts will discuss diagnostic and therapeutic strategies covering the spectrum of pigmented lesions ranging from congenital nevi, atypical nevi, Spitz nevi and cutaneous melanoma managements. Dr. Keith Flaherty, director of Developmental Therapeutics at the Massachusetts General Hospital Cancer Center, will discuss what is the state of the art systemic therapy for metastatic disease. This promises to be an amazing session.	<i>Moderator:</i> <i>H. Tsao, MD, PhD</i>  <i>Faculty:</i> <i>A. Marghoob, MD</i> <i>K. Cordoro, MD</i> <i>K. Flaherty, MD</i>
1:00-1:15 PM	<b>Q&amp;A</b>	
1:15-2:15 PM (Non-CME Event)	<b>Industry Sponsored Product Theater hosted by Janssen</b> A First-Line Biologic in Adult Patients with Moderate to Severe Plaque Psoriasis. Speaker: Andrea Nguyen, MS, PA-C	
2:15-5:00 PM	<b>Dermoscopy Workshop: Special Site Dermoscopy</b> The dermoscopic structures and patterns visualized are influenced by the micro-anatomy of the skin. This in turn impacts the algorithms used to in differentiating benign from malignant skin lesions. It is well known that the skin microanatomy on the face and glabrous skin (i.e., palms, soles, mucous membranes, nail unit) differs from the rest of the skin. The Dermoscopy Workshop this year will focus on the structures and patterns encountered on these 'special sites.'	<i>Faculty:</i> <i>A. Marghoob, MD</i>

## Q&A Webinar (Non-CME Event)

Sunday, September 27, 2020 (Pacific Time)		
7:00 AM	Dermatology Update 2020	Faculty: T. Rosen, MD M. Zirwas, MD L. Diaz, MD S. Desai, MD
7:30 AM	New Drugs and New Therapies for 2020	Faculty: T. Rosen, MD L. Stein Gold, MD
8:00 AM	Rashes and Itch	Faculty: M. Zirwas, MD
8:30 AM	Zebras in Dermatology	Faculty: T. Rosen, MD S. Desai, MD A. Yan, MD
9:00 AM	Infectious Diseases 2020	Faculty: T. Rosen, MD A. Yan, MD
9:30 AM	Atopic Dermatitis	Faculty: L. Eichenfield, MD E. Simpson, MD
10:00 AM	Neonates to Adolescents Pediatric Dermatology Update 2019	Faculty: A. Yan, MD M. Perman, MD
10:30 AM	Cutaneous Oncology	Faculty: T. Rosen, MD G. Martin, MD D. Ozog, MD H. Gladstone, MD
11:00 AM	Acne and Rosacea Update 2020	Faculty: J. Harper, MD M. Perman, MD H. Baldwin, MD
11:30 AM	Disorders of Pigmentation	Faculty: A. Pandya, MD
12:00 PM	Nailing the Diagnosis	Faculty: P. Rich, MD
12:30 PM	Psoriasis and Psoriatic Arthritis 2020	Faculty: B. Strober, MD, PhD A. Kavanaugh, MD J. Gelfand, MD
1:00 PM	Hair Disorders	Faculty: J. Shapiro, MD
1:30 PM	Cutaneous Manifestations of Systemic Disease	Faculty: S. Desai, MD
2:00 PM	The Pigmented Lesion Clinic	Faculty: A. Marghoob, MD H. Tsao, MD, PhD K. Flaherty, MD K. Cordero, MD
2:30 PM	Dermoscopy Workshop	Faculty: A. Marghoob, MD
